(must attend at least one session, and be present to win)

11AM - BIDDING & CONTRACTS — YOUR KEY TO SUCCESS

Wayne Volz started his lawn and landscaping business in the summer of 1979 with a push mower, an electric weed eater, a 1975 Caprice (supplied by his mom & dad) and an attitude for success. After years of trial and error bidding, and the loss of thousands

of dollars, Wayne developed a bidding process that is simple, accurate, and professional. Knowing that there were many contractors that would benefit from this same information. Wayne began **Profits Unlimited** in

1990 to assist lawn and landscape professionals with bidding, contracts, marketing and professional selling skills. Take advantage of Wayne's 38 years of experience and knowledge.
